THE POWER OF BALANCE

The new collection of knobs and handles for 2025 that awaits you in these pages takes its inspiration from the Japanese concept of “Ma” (間), an idea that explores the creative possibilities of negative space or the pause between objects. Like the silence between musical notes or the emptiness in a work of art, “Ma” is the nothingness that explains the whole. The pause in which the imagination can play. A breath of freedom. Far from being mere absence, it is a crucial element that gives meaning to the pure forms of new designs, endowing them with balance and emphasising their power to give meaning to their surroundings. A minimalism that lets each space tell its own story.

Viefe[®]

DESIGN WITHOUT BORDERS

The world is our playground. Our brand is international in spirit, open to all lifestyles and ways of understanding décor. You can find our products in architecture and interior design projects all over the globe; professionals and private individuals find in Viefe the perfect decorative pieces to transform their spaces with the perfect design touch.

OUR LONG HISTORY

Viefe's origins lie in a button turnery, founded in 1932 in Sant Pere de Torelló (Barcelona). That small family business evolved into what today is a company specialising in the manufacture of decorative design accessories. In almost 100 years we have gone from fashion to decoration, always staying true to the style that defines us.

We are part of the Ges Valley, an area of extraordinary landscapes.

NATURE LOVERS

Our roots are closely linked to those of the great beech and oak forests that surround us, protected spaces that we love and are our welcome duty to preserve. That is why we adopt a culture of environmental awareness where we opt to use wood and organic materials, recycled paper and plastic packaging, 100% renewable energy and lower-than-average CO₂ emissions.

OUT STANDING DESIGNERS

We collaborate with prestigious designers from around the globe to create cutting-edge decorative accessories. Their talent, visionary approach and aesthetic sensibility elevate the creative discourse of our brand, resulting in an end product that is truly remarkable. Our challenge is to bring what they envision to life.

PRODUCTS IN BALANCE

The minimalism of the new
collection is our way of
going back to basics.

DISPLAY BOARDS

On the display boards that you can see here below, all the different models of knobs and handles that we have available can be seen along with the finishes and some of the more representative measurements. So you have an idea of the dimensions of the products: each display board measures 20 x 15 inch and the long one 20 x 63 inch.

Product reference included on every display board. Some display boards do not include the complete range of products from the collection. Please read carefully the notes placed on each one.

VIEFE DISPLAY TOWERS

Our towers are designed to display up to 32 boards. This innovative system is designed to be versatile and to fit to our customers possibilities and needs. You can adjust the display options taking into consideration your space. The standard set-up (one tower) lets you display 8 boards with less space and add the long version to promote these unique handles.

Moreover, you have different options to present the towers so you can adjust the style to your showroom. With a European design, these towers are easy to assemble and are sold and sent separately with instructions included.

TECHNICAL DATA

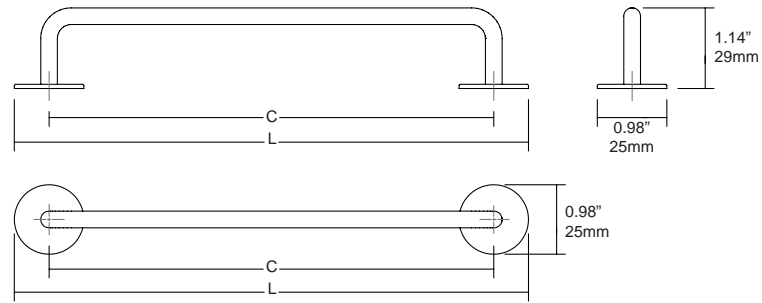

It's what you don't see where
our true quality lies.

FINISHES FOR UNIQUE EXPERIENCES

Our finishes are more than just how they look and feel – they influence how we view the furniture in a room, the very atmosphere. Now, added to the iconic polished nickel, brushed black, titanium black and brushed brass cava is the new brushed bronze, which conveys a timeless sophistication perfect for trendy interiors.

IMPORTANT NOTE:

The finishes that you see represented in this section are a digital simulation of the real finishes and in no way can they be used as a reference for physical comparisons. The aim of this index is to guide and inform the user about the finishes we work with. The finishes of all our models are defined exactly as is indicated in the catalogue and therefore are in no way characteristics that can be personalized.
